FOR COLLEGE STUDENTS [Learn more](#)

Chemistry laboratories can be hazardous if the rules are not followed. During a chemistry course a student may handle materials which are carcinogenic, poisonous, flammable, and explosive. Some of these materials and equipment may also cause severe burns, cuts, or bruises if handled improperly or carelessly. Most accidents that occur in the chemistry laboratory are a result of carelessness, impatience, improper or unauthorized experimentation, and disregard in safety rules or proper operating procedures. In order to

## Editorial Reviews

### About the Author

Hamid Reza Ghenaatian, completed his primary education in Jahrom, Fars province. He has an undergraduate degree in pure chemistry and a Ph.D. in chemistry in Ferdowsi University of Mashhad and Tarbiat Modares University of Tehran. He previously taught introductory college chemistry and nano laboratory chemistry, and has over 15 years of laboratory and research experience. He is currently working as an academic staff and dean of the faculty of sciences in Jahrom University, Jahrom, Iran. He and his colleagues have published many books and papers in theoretical and application chemistry fields. At the same year he became a member of Iranian Chemical Society and teaches in workshops of university and student research centers. Tel: +987154344445; Email Address: ghenaat@jahrom.ac.ir; Address: faculty of sciences, Jahrom University, Postal code: 74135111, Jahrom. Maryam Ayoubi, She completed his primary education in Jahrom, Fars province. She has achieved her MSc in Nano-chemistry(Nano-sciences and Technology) in Islamic Azad university , Marvdasht Branch while she studied her B.S. in Applied chemistry. She has 7 years of experience in Jahrom University as chemistry labaroty expert; several month she has worked in Perochemistry industry in Marvdasht . She has done some research activities in nano field of study. She participated in national conferences with the topic of nano composite. Since she is the first graduated student in nano chemistry in MSc , her work significance is really noted.
