Health and Safety Executive (HSE) Management System should be a straightforward part of managing your business as a whole. It involves practical steps that protect people from harm and at the same time protect the future success of your business. Risk is a part of everyday life, and even quite straightforward businesses can have a range of 'hazards'. You are not expected to eliminate all risks. What you must do is to make sure you know about the main risks that affect you, and what you need to do to manage them responsibly. There
